

## A BEAUTIFUL HOME

for a hardworking man Absolutely Free, and completely furnished, too

Such an opportunity is very rarely offered to the public of today as the above. In days of keen competition in real estate, as in business, people do not care to part with too much money gratis. However, the case is entirely different with us. We have a picturesque sub-division for sale at a phenomenally low price and as there were several lots to be sold we made the offer of a completely furnished house and lot to be won by some one who was successful in the contest. Numerous lots have been sold already in this ideal sub-division and some are endeavoring to obtain the prize, but that should not deter you from entering as the opportunities are favorable for your success as it depends entirely upon yourself.

## Alexandra Park

Is a sub-division possessing great prospects for investors as its location is surrounded by charming scenery—it is high and dry and commands a splendid view—it is only a few blocks from Whyte Avenue and lies in the southeast of Strathcona. In considering the purchase of these lots at such low prices you would long to regard you of the future outlook of Strathcona when the Union of the Two Cities becomes an accomplished fact, and the High Level Bridge is completed. It will ensure a rapid growth of residences and necessitate the widening of the city limits as property at the present time is being taken up very quickly.

The conditions of the contest for the prizes are: One Coupon with every lot purchased and One Coupon for every lot purchased by friends to whom you introduced the property. Isn't it easy, now? Surely you will jump in and win; won't you? Just take one look at the price and terms.

**PRICE, \$100. Terms \$10 down; \$5.00 Per Month. No Interest**

**C. PLANITZ & CO.**  
555 First St. South Edmonton, Alta.

### STRATHCONA NEWS

#### LOCALS.

The concert given last night, (St. Patrick's) by the ladies of St. Anthony's church, in Hickox's Hall, was a great success. The following was the program rendered:

Duet—"Qui Vivit," Misses Decker and Cooper.  
Song—"Irish Melody," Misses Fitzgerald and Guinette.  
Recital—"St. Patrick's Birthday," Miss McKay.  
Violin and Piano—"Melody," Misses Cooper.

Song—"Take Off Your Hat to Old Ireland," Miss McGinn.  
Piano—"The Miniature Boy and St. Patrick's Day," Miss Lecker.  
Song—"Father, O'Finn," Miss Cooper.

Song—"Come Back to Erin," Miss Moret.  
Violin and Piano—Variations, Misses Cooper.

Recitation—"Paddy's Dilemma," Miss Meakin.  
Song—"Ireland," Miss Dowle.  
Recitation—"The Irish Flag," Miss Cahill.

Song—"I'm Tying the Leaves," Miss Pate.

Mrs. R. T. Scarlett, of Carleton, is visiting Mr. and Mrs. J. H. Grieson, Fourth avenue, north, Mrs. Wilson of Moose Jaw, who also has been visiting them, returned home Thursday.

Mrs. Scarlett is a sister of Mrs. Grieson.

Dr. Marlon has received word of the death of his father in Custer, Ontario.

Mr. and Mrs. O. Bush have returned from a trip to California, and Mr. and Mrs. O. Bush from a trip to Ontario.

The Edmonton County Royal Sealer Chapter will hold a meeting in Strathcona Orange Hall on Monday, March 20th. The chapter opened in Westskewin on the 4th inst. and this adjourned meeting is being specially held for the examination of candidates. It is hoped that all members will endeavor to be present. Visiting members cordially invited. Supper will be served after the ceremony.

There will be a meeting of the Local Council of Women on Monday afternoon, April 2nd, at 4 o'clock, in the council chamber, members of the Edmonton Women's Council will address the meeting. It is hoped that all women of the city interested will be present.

Miss H. M. Abram has come to Westskewin to take a position in the law office of E. D. H. Whitham as stenographer.

The funeral was held yesterday of the infant child of Mr. and Mrs. Eliza Wilson.

Work will be commenced Monday on the construction of the new Bijou theatre. It will be a brick structure just west of the Hamilton block on White avenue west. The building will be erected by J. P. Doherty and will have a depth of 100 feet with full lot frontage. The basement will be full sized with a foundation of strength sufficient for a three story building. Although for the present the structure will be but one story, Mr. P. Doherty is providing for future requirements by building the walls to sustain the second floor when necessary.

Two small stores will be provided in the front of the ground floor, being divided by the main entrance of White avenue to the theatre in the rear. Contractor W. G. Condon will have charge of the building operations. Manager McKernan, of the Bijou has already ordered several hundred opera chairs with the intention of having the new theatre complete with the latest accommodations.

The building will be ready for occupancy in the summer. It is expected a series of Sunday evening sermons will be given next Sunday. The first under the title "Christianity a Religion from God." Mr. Miller will conduct the services in Knox church morning and evening.

The funeral takes place at two o'clock today of Mrs. Baker, wife of Charles L. Baker, of Strathcona. It will be held from Westminster's undertaking rooms.

Mrs. Baker was taken ill several weeks ago and what at first appeared to be a severe cold developed into pneumonia. She was 51 years of age and an old resident of Strathcona.

Tuesday afternoon a fifteen-year-old negro girl, named Mattie Simpson, of the C.P.R. office here, boarded the train and disappeared.

Shortly after her father, Taylor Simpson, arrived on the local train and ascertained that his daughter was missing.

He wired the Calgary police and Miss Mattie was taken into custody immediately upon her arrival there. It now appears that her father has laid information against district upon a serious charge and this young man was arrested yesterday by Patrolman Alexander, Chief Robinson being absent in Calgary for trial.

COMMISSION HERE MARCH 18TH.

The commission appointed by the Dominion Government to inquire into conditions affecting the wool and nutron industry of Canada will sit in the Knights of Pythias Hall in Lethbridge on March 27th and 28th; the offices of the Alberta Live Stock Association, Calgary, on the 27th and 28th, and in the City Council Chamber, Edmonton, on March 31st and April 1st.

Let the Alberta wool and nutron growers show their interest in this matter by appearing before the commission at one or two of these places and informing that body of the difficulties in the way of wool and nutron production in Alberta, suggesting such remedies as they think are necessary under the circumstances.

TO CURE A COLD IN ONE DAY.

Take Dr. Cassell's Kidney Pills. It is a sure cure for all kidney troubles. It is on each box. 25c.

Best Banners are Nipped.

New York, March 17.—Whenever I catch a nipping on the base,

says Manager Charlie Doherty of the Philadelphia club, "and then hear the spectators in the bleachers calling me such names as 'homehead,' 'dope' and other pleasant titles, I feel like apologizing to the victim. I want to catch off the base."

"Do you know the type of players that get caught off the bases? They

are generally the fastest and liveliest players on the team. A poor base runner will seldom be caught off the base for the reason that he will not as a rule get off the bag far enough ahead such an opportunity to the opposing catcher."

"The man who is caught is the fellow who is on his toes and taking a big lead and not the leader. Fosted players are waiting for the opposing batsman to drive him around the circuit. He sticks to the bag like it were heaven and will hardly move an inch except when somebody hits the ball. As a result it is sometimes an effort for base runners of that kind to get to second base on a single."

## AD WOLGAST RETAINS CHAMPIONSHIP TITLE

Defeated George Thompson, of Los Angeles, by a knockout in the eighth round in the fight for the title of champion of the world in the light flyweight class.

Vernon Arena, Los Angeles, March 10.—Ad Wolgast retained his title of light flyweight champion of the world in a scheduled 20-round fight with George Thompson, of Los Angeles, Saturday evening at the Vernon arena. Wolgast, who is from the city of St. Louis, Mo., defeated Thompson in the eighth round by a knockout. The fight was a close one, but Wolgast's superior boxing and speed proved to be the deciding factor.

The fight began with Wolgast on the attack, and he landed a series of powerful blows on Thompson's head. Thompson was forced to retreat, and in the eighth round, Wolgast landed a series of blows that knocked Thompson out. The referee stopped the fight at once.

Wolgast's victory was a significant one, as it proved that he was still the champion of the world in the light flyweight class. He has now won his third consecutive title, and he is expected to continue his reign for some time to come.

Wolgast's performance in this fight was excellent, and he was well supported by his fans. He was a popular figure in the arena, and his victory was a great source of pride for his supporters.

## HE REFUSES TO DISMISS THE ACTION

(Continued from Page 1)

gining of 1911, the very best feeling existed between himself and Mr. Boulton.

Mayor Armstrong answered a number of questions having reference to the hours of inspection by the investigating committee. When the inspection trip was over the committee decided to meet in the council chamber and come to an understanding on the situation with the utilities commission.

The meeting was held February 21st in the council chamber. All the members were present with the exception of Alderman Hyndman. Mr. Boulton was called to appear before the council. He was first asked how often he had visited No. 2 fire hall during the course of its construction.

"That," said Mayor Armstrong, "was as far as we get."

"He refused to be examined by a committee of which Alderman Boulton was a member, and said this was a revival of the inquiry, all that was lacking being instruments of torture. From that on it was a general trade."

He called for an investigation by a Supreme Court judge and asked that the complaints be put in writing and an opportunity given him to answer them.

Difficulty in Paying Him. The mayor stated that the members of the council had great difficulty in paying the Commissioner Boulton to a point where he would agree to resign.

He had about thirty questions to put to him, but he refused to hear any of them or to consider their propriety to give him time to answer them.

"How long did the meeting last?" asked Mr. Walsh.

The Mayor: "About two hours."

Mr. Walsh: "And what were you doing all this time?"

"Simply listening."

"What do you mean by that?"

"Well, we were endeavoring to get Mr. Boulton to answer our questions and he wouldn't listen to us."

"Was that all?"

"After a bit Mr. Boulton became abusive."

"Yes, in what way?"

"Why, he styled the aldermen 'cheap politicians' and 'cheap politicians' and such other terms. Finally, when our patience was exhausted, we adjourned the meeting."

Mayor Armstrong stated his reasons for thinking that Commissioner Boulton ought to be dismissed; because of discrepancies in the various departments and his belligerent attitude towards the mayor and members of the council.

That Mr. Boulton had been abusive towards himself was one of the reasons alleged by the mayor for his having made up his mind that the commissioner should be dismissed.

Mr. Walsh proceeded to question the mayor particularly as to the advisability of Commissioner Boulton, but Mr. Hagar objected on the ground that the only question in dispute was whether the proper procedure was taken to dismiss the Commissioner Boulton, not whether there was or was not cause for dismissal.

"Then do you admit that the council had cause?" asked Mr. Walsh.

"I thought they had cause."

"I am willing to concede that if the evidence as to cause which Mr. Walsh proposed to elicit were correct the whole question with all its bearings on municipal politics, would have to be fought out in the court."

"Let us keep politics out of the court," said Mr. Hagar. "I don't know whether my learned friends' recent experience has made their decision."

Mr. Justice Stuart: "Well, I'm not a Royal Commissioner."

This passage caused a burst of merriment in the council.

A Fugitive Document. Waiting for the meeting the question of examining the mayor on the point of the personal action which led him to make up his mind to vote for the dismissal of Commissioner Boulton, Mr. Walsh asked that the mayor be allowed to explain the extraction of certain minutes from the records of proceedings of the commissioner's meeting. The mayor then related that he had been absent

from the meeting in question at which Superintendent McNaughton and his manager were dismissed. He had the minutes taken from the records in order to make certain corrections and to interpolate "in the public interest" with reference to the dismissal of the superintendent.

The minutes had subsequently been left on his desk by the stenographer and had remained there.

Mr. Hagar: "On January 13, Mr. Boulton, chairman of the committee of public works, gave to the records of the city an interview in which he says that 'Commissioner Boulton is no good,' and that his administration is bad—how does that know that?"

"Yes."

"And yet you say that the records of the investigating committee were not made for the purpose of getting information against Mr. Boulton?"

"I do. But I called up Alderman Boulton and told him I thought he had done wrong in saying what he did to the newspapers."

"And the interview was given by Alderman Boulton before a single utility had been visited?"

"No, we had visited the power plant."

Mr. Mayor: "You found the papers, I suppose, and you knew that on the newspaper that the report of the Public Works committee had been published to a vote of censure on the Commissioner."

"Yes."

"Was a Party to It?"

"And in the face of that, you mean to tell me that you are a party to the commission?"

"I am charged with the question in admitting his responsibility in bringing Mr. Boulton before the committee of the council."

And to that meeting there was invited the superintendent McNaughton, the superintendent of the fire department and other resigned and dismissed superintendents.

The superintendents were invited to this meeting because they were the representatives of the press were excluded."

"Simply because they knew of the facts bearing on the charges against the commissioner?"

"When the superintendents were there to accuse him?"

"Then why did you have these men there?"

"They had made statements of discreditable nature and we wanted them because of their charges."

The Mayor stated that the superintendents were present at the meeting for the purpose of stating against the commissioner. He did not know why Alderman Boulton invited them. He stated that the superintendents were there to give evidence if necessary with regard to the commissioner's administration of the city.

The court adjourned at this point and will resume at two o'clock this afternoon.

## The Piano Worth While

The public realize that cheapness is by no means a recommendation for a piano. On the contrary, "the piano worth while" is the piano that has endurance, stays in tune, and has a pleasing quality of tone. The piano worth while is a real investment—one that gives music, culture and pleasure for a lifetime. Though the

## A STORMY SCENE IN OTTAWA HOUSE

GLEN CAMPBELL, DAUPHIN, RE-  
PEATEDLY CALLS DR. NEE-  
LEY A LIAR.

CHAWA, Mar. 17.—When the House of Commons met it was assumed that the day would be spent quietly in reply on the interior department estimates but there were a couple of unexpected developments in the form of a short debate on the reciprocity agreement and scene which in reply to Glen Campbell (Dauphin) and Glen Campbell (Dauphin) who were protesting in objection to a statement made by Mr. Neely called him several times over and not being disposed to withdraw the expression, Deputy Speaker McIntyre, who was presiding over the committee said he would be compelled to report the matter to the House.

Mr. Campbell then withdrew the expression but denied most emphatically that the statement made by Dr. Neely called him a liar. Mr. Campbell had taken steps to make the officials of the interior department do what was not in the best interests of the country was true, Dr. Neely submitted that what he said was not important but after a long wrangle he agreed to accept the statement of the member for Dauphin and the trouble was over for the day.

**Short Reciprocity Discussion.**  
The reciprocity discussion was based on a question by Glen Campbell as to a speech delivered by E. W. Nesbitt (North Oxford) in which he stated that the reciprocity agreement represents all the Government intends to do in the way of tariff reduction. The Premier stated, "We could not undertake to have free trade in manufactures." The Premier said the policy of the Government was well known in the House, and members were justified in proclaiming it as their own.

**Mr. Foster Critic.**  
Mr. Foster said that was not an answer to the question, which was whether Mr. Nesbitt was authorized to give this pledge. He remarked that he had noticed of late years a growing practice amongst the members who seemed to have been authorized to make statements as to what would be done, which was not very far from the truth, but there was no such authorization. The members were authorized to make Government promises.

Mr. Nesbitt said the statement made by Mr. Nesbitt was quite consistent with the policy of the Liberal side of the House.

Mr. Foster returned that this was not an answer. Did the Prime Minister authorize Mr. Nesbitt to make the statement?

Mr. Nesbitt replied that Mr. Nesbitt had only stated what was general policy.

Mr. Hughes suggested that what was being said was not a statement but a promise to withdraw the resolution.

The Premier "We are just listening to a man from the country."

Says **Farmer Misinformed.**  
Mr. Nesbitt (Dauphin) said: "I don't believe the farmer of the West has been misled by the Government."

## NEW PROFESSORS FOR UNIVERSITY

BOARD OF GOVERNORS MAKE  
THREE ADDITIONS TO THE  
STAFF.

The second meeting of the board of governors of the University of Alberta was held Thursday afternoon, with almost a complete representation of members, viz. Chairman, E. C. Pardee, Edmonton; Dr. G. A. Kennedy, Macleod; F. W. Johnson, Lethbridge; H. E. Starks, Medicine Hat; A. L. Cameron and Dr. John, Calgary; Chancellor Stuart, Calgary; and W. M. Linger, Edmonton.

The financial statement for the current year up to February 28th, 1911, was presented and accepted.

The matter of increasing the staff was dealt with by the board and it was agreed that considerable additions should be made. The following appointments were decided upon, others being held over for a future meeting:

**Professor in Classics.**—Alan Chester Johnson, B.A., Edinburgh, Ph.D. (John Hopkins).

**Instructor in French.**—S. Adam, B.A., University of France.

**Instructor in Drawing.**—A. Adam, B.A., University of France.

The board also decided upon the appointment in classics has had a very distinguished career. He graduated with honors from Baltimore University in 1901. For two years he was tutor in classics at Johns Hopkins which he entered Johns Hopkins as a student.

In 1908 he was elected fellow of Johns Hopkins where he took his Ph.D. degree in 1910. The same year he was by competitive examination the classical fellow awarded by the American Archaeological Institute. For the last two years he has been abroad studying in Germany and Athens. At the latter place he is now holding the Fellowship of the Carnegie Institute in Classical Archaeology.

C. E. Rice, B.A., who has been assistant registrar during the past year, was appointed permanent registrar to the University.

The registrar read the formal declaration of the scrupulous with regard to the election to the University Senate, and was authorized the first meeting of that body on March 18th or 19th, whichever day should seem to be the more convenient.

The plot of the grounds examined by the old senate were gone into carefully. The question of proceeding with additional buildings and equipment was left to be worked out by the executive after consultation with the government.

A sketch of a coat of arms for the University presented by the executive and approved and a seal bearing upon it the motto, "Quoniam Veritas." (Whatsoever the Truth).

The president called the attention of the board to a letter received from the president of the University of London, England, inviting the University to participate in a conference of the Universities of the Empire, being called in 1912 by the University of Oxford, Cambridge and London. It was anticipated that the Canadian University would take an active part.

## THE ONTARIO HOUSE OPPOSES RECIPROCITY

AMENDMENT OF LEADER OF OPPOSITION  
HON. A. G. McNICOLL, ON THE  
MAIN RESOLUTION OF PREMIER WILSON  
IS CARRIED BY VOTE OF 24 TO 11.

Toronto, March 17.—The Ontario Legislature today by a vote of 24 to 11, placed itself on record as unilaterally opposed to reciprocity with the United States.

To give effect to the resolution, Mr. McNicoll (North York) proposed that three copies of the King and the Queen be sent to the United States.

After Sir James had summed up the debate, a vote was taken on the Hon. Mr. McNicoll's amendment to the reciprocity resolution which was defeated by a vote of 17 to 15.

The main motion was then put and was carried by a vote of 24 to 11. Hon. E. R. Lacombe left to catch a train before the second vote was taken.

Thinking that the resolution would be carried without the vote and news being called, Allan Buchanan, voted with the Opposition.

**What Matters Opinion of Others.**  
In concluding the debate, Sir James Whitney declared that Mr. McNicoll's motion of Conservative opposition by saying that it was outside the question to say what Mr. John Macdonald or the Progressives or the Tories thought of reciprocity.

Mr. McNicoll's motion of Conservative opposition by saying that it was outside the question to say what Mr. John Macdonald or the Progressives or the Tories thought of reciprocity.

## SAVES AGAIN ON PEACE MOVEMENT

MR. EDWARD GREY CORRECTS  
SOME MISAPPREHENSIONS  
THAT HAVE ARISEN.

London, March 17.—Sir Edward Grey, foreign secretary, has been interviewed by the International Arbitration League and the League of Nations, and has corrected some misapprehensions which had arisen regarding his new famous speech in the House of Commons in which he gave his support to the suggestion of President Taft for an Anglo-American treaty providing for the settlement by arbitration of any question that might arise between the two governments.

"I observe," he said this evening, "that some of the words that I used the other day are being construed as if a general arbitration treaty between two great nations would be tantamount to a defensive alliance between them. If a general arbitration treaty were made between two great nations and became firm in the feelings of the people of both countries, and if one of them were to be attacked by a third power, it would be tantamount to a defensive alliance between the two powers who had made the general arbitration treaty."

"I observe," he said this evening, "that some of the words that I used the other day are being construed as if a general arbitration treaty between two great nations would be tantamount to a defensive alliance between them. If a general arbitration treaty were made between two great nations and became firm in the feelings of the people of both countries, and if one of them were to be attacked by a third power, it would be tantamount to a defensive alliance between the two powers who had made the general arbitration treaty."

## H. ARING OF CITY CASE COMMENCES

INTEREST IN MUNICIPAL TROUBLE BROUGHT CROWDS TO COURTROOM.

Not down for hearing on Wednesday last but repeatedly postponed, the case of H. A. Aring of City and Arms Street et al. came before Mr. Justice Stansfeld in the Supreme Court last evening.

Despite the disappointments experienced by those who had attended at court daily since Wednesday only to find that the hearing had been still further delayed by the demands of cases which preceded it on the list, interest in the case was apparently undiminished, and before the hour for which the case was called the courtroom was crowded. The Mayor and Commissioner Hutchins, who arrived shortly before eight o'clock, were seated in the front row, and the case was called on the list.

The case was called on the list. The case was called on the list. The case was called on the list. The case was called on the list. The case was called on the list.

**La Diva**  
NON-RUSTABLE  
**CORSET**  
The Newest Model

Here is indeed a corset embodying the very latest decrees of Queen Fashion. Fresh from their latest studies in Paris, our designers present to you the new La Diva Model No. 666. La Diva Corsets give distinctive distinction, of a simplicity of gown. The corset is the foundation of a perfect toilet, and La Diva is the best foundation.

This particular model is designed for slim figures. Note the lines of grace and beauty, the flares of the back and the straight hip and front. Observe how it adds to the figure. You will be enthusiastic about this corset achievement and even more so when you find out for yourself how absolutely comfortable and useful it is. Yet in spite of its perfection of style, fit and finish, it is sold by all good stores for only \$3. Imperfect copies of equal value sell at about \$5 owing to the duty.

Others styles from \$1.00 to \$5.00.

## A STORMY SCENE IN OTTAWA HOUSE

Government in this matter. The hon. member for Ottawa was very prompt this afternoon to rise and read a telegram and state that he had not received intimation from a single person in the West that they were opposing this retroactive agreement. I venture to say that if the farmers of the West are assured that by the passing of this retroactive agreement as the member for North Oxford states there will be no reduction in the tariff on the article, then you would find that the farmers of the West adopting a different attitude and sending a different telegram. The farmers of the West are being misled and only one side of the story going out to them. Through a paper called Irish Grove's Guide, edited by a man who is here at present, lobbying with Liberal influence in the House, it is easy for him in this House, it is easy for him in his journal, to Conservative members of parliament to vote for the Government on this particular question, but I wonder if the guide will tell the people the actual facts that this Government does not intend to reduce the duty on agricultural implements. If the farmers know that we would be getting a different kind of resolution from the various associations, and which, I venture to say, has been prepared by Mr. Mackenzie, editor of that Guide, and Mr. Henderson, an associate, who is president of the Grain Growers.

**Gets Copies of Resolution.**—They have been disseminating this resolution at all their meetings and every day I get by mail copies of resolutions. (Lateral cheers.) I admit it, but just wait a minute," said Mr. Sturges. "It is the same resolution all through, word for word, suitable for anybody and is taken out by that association to the farmers. I tell you, Sir, that if the farmers know that this Government was not going to make any reduction on agricultural implements, there would be a different kind of letter, and a different kind of resolution coming to members of this House."

"We have at last succeeded in getting from the Prime Minister an admission that he is not going to do it," the hon. member said, and he then read the resolution which he had just received from the Prime Minister.

**Was Accurately Reported.**—Mr. Nesbitt said he had been fairly accurately reported, and added that he was glad to know his speeches were of such importance.

to withdraw something that is absolutely true," observed Mr. Campbell. After further discussion, Mr. Campbell withdrew the expression "at your order, Mr. Chairman."

Dr. Schaffner (Bouris)—"Now you had better make that man withdraw."

**Not Unparliamentary.**—Col. Hughes then raised the point of order, and Dr. Neely's remark, that the member for Dauphin had better make that man withdraw, was the crown to perfract an illegal act. The deputy speaker did not think the expression was unparliamentary.

Dr. Neely denied using such words and when interrupted by Col. Hughes, said he would give him an opportunity to speak adding, "I am not prepared to wait enough to make imitations."

"Why don't you call him to order?" said Dr. Reid (Greenville), but the chairman said he had not heard the member for Dauphin had made an admission or a statement.

"That is absolutely false," broke in Mr. Campbell.

"That in connection with a certain transaction, first of all, but my hon. friend was identified, that it cost him a firm certain sum of money in order to induce an official of the department to obtain this grazing lease."

He added that he had a record of the speech of Mr. Campbell in that statement was made.

**Mr. Campbell Makes Threats.**—Further explaining his position, Mr. Campbell denied making any such statement. The story was based, he said, on an article in the Winnipeg Press. He went on: "No man alive can come to my face and say to me, 'You did a mean or crooked thing,' and the member for Humboldt cannot do it anywhere outside of this House and he cannot get me to do it outside this House, or I will give them some of the fairest sport they ever had. Is it a fair thing that a creature of circumstance like a member of parliament, if that language is unparliamentary, can get up here and under your protection say something that he cannot say anywhere else in God's wide world. What he says is absolutely false and it was all the time false."

**Went to the House.**—Then there followed a wrangle between the chairman, Mr. Campbell and Dr. Neely over the explanation of the point of order. The chairman did not know that the words were unparliamentary themselves, but the member for Dauphin denies having done the act attributed to him by the member for Humboldt. His denial must be accepted."

Dr. Neely said: "If the hon. member for Dauphin says he did not make the statement on the platform in his constituency in the last Dominion

election that he on his firm kept a certain sum of money to obtain a grazing lease, he would accept it."

Mr. Campbell was ready to make that statement, but he was not going to have the one put on him. He had made his denial and insisted on fair play. He wanted Dr. Neely to take back his statement without any reservation.

After further discussion the chairman said the words of Dr. Neely might be fairly construed as a withdrawal of his expression.

Dr. Neely said he was prepared to only the withdrawal of his statement, the member for Dauphin, but Mr. Campbell came back. "He had better see his text before he makes that statement."

Just before the speaker left the chair Dr. Neely said he would accept Mr. Campbell's statement and peace was restored.

The matter which, while it lasted, was one of the most violent witnessed in the House in recent years, arose out of a statement by Glen Campbell that a man who had denied an election in 1906, and who had been allowed to sit on the Saskatchewan and take up a homestead which he was not entitled to, had been given a grant of the railway lands by the government. He complained that Conservatives had been discriminated against.

When the discussion of supply was resumed in the evening, Mr. Oliver said that the department made every effort to deal justly with homesteaders. If in this instance the proper thing had not been done it was not intentional on the part of the government as it was not always possible to be constant of all the circumstances in connection with every application for a homestead. If the department had done something which should not have been done, he was willing to be solely take the responsibility for it.

At the evening sitting, an hour was spent in considering the clause in the S. M. R. act which gave the Alberta Electric Railway company, by which the railway was to be given rights to mine coal in Southern Alberta.

Mr. Frank Oliver objected to the clause on the score that other railways had no such privilege and that it was a bad thing to establish a new privilege. His objection was that the railway and coal interests would be in a position to be impossible to deal with them separately.

John H. Kerr pointed out that the C. P. R. mined coal at Homestead and the C. P. R. was securing all the rights along the foothills of the Rocky mountains.

Mr. McCraney thought the bill should go back to the railway company and that the matter should be fully discussed. It was deemed, he said, to see what arrangement had been made between representatives of the Alberta government and the company. That rights should not be made up with the railway charter, but should be dealt with by a subsidiary company.

J. O. Turill said he would have no objection if a subsidiary company was formed.

Mr. Oliver said that he took it as a tap survey coal centre to Southern Alberta. It was a blanket charter designed to cover a merger of all the coal mines and every fossil of Southern Alberta. Mr. Oliver said there had been no complaint as to the Galt railway operating coal mines.

No railway had been made on the bill at nine o'clock when the House went into recess.

**Complaint to Department.**—During a discussion on the homestead bill, Mr. Oliver and Mr. Neely agreed in stating that the regulations of the department, the minister, they thought, was wrong in the case of the homesteaders and some relaxation might be allowed in many cases without any harm resulting.

Mr. Oliver said that he took it as a complaint to be criticized from both sides of the House. However, it was necessary to be very careful because the House was so lately on the part of the department it would not escape criticism. The only thing to do was to see to it that the regulations were fair and properly and without discrimination.

**Ottawa Hockey Surplus 8000.**—Ottawa, March 15.—Unofficial figures place the attendance at the Ottawa hockey club games in the N.H.A. at 45,000. The average attendance was 1,500, and there were eight games. The receipts in all totaled about \$25,000, the rink getting \$1,000, and the club \$24,000. The travelling expenses came to about \$2,500, and the team cost exactly \$5,000, nine men being carried. The expenses of a coach, trainer and assistant trainer were also paid, but the club had the most prosperous season in its history and will likely have a surplus of about \$1,000.

The receipts owing to the general reduction in prices of the rink took in last year, when the club took in \$25,000, were reduced to about \$15,000, and the club would have about \$100 on the right side.

Let us say, however, that the salaries amounted to over \$12,500. The rink was reduced to about \$1,000, or the club would have been at least \$1,000 ahead. Capacity houses, all but one or two of the games, but the season ticket was worth \$10.

These figures are only roughly estimated, and it is not to be taken as an issue they will be found to be correct in the correct place.

**Many Immigrants for West.**—Halifax, March 17.—The Allan Line steamer Tunisian, Captain Fairfull, arrived from Liverpool yesterday evening, with 31 sailors, 310 second and 310 third class passengers. The latter are immigrants, most of whom are going to settle in the West. Among the party were fifty Weichens, who are to make their homes in Saskatchewan.

**Died While Roller Skating.**—Smith's Falls, Ont., March 17.—Having challenged her host to a party to give with him exhibition of figure skating for the welfare of the welfare of a party, Andrew Light, a well-known cattle dealer, died of heart failure. He was 47 years old. These years ago his wife died of heart failure.

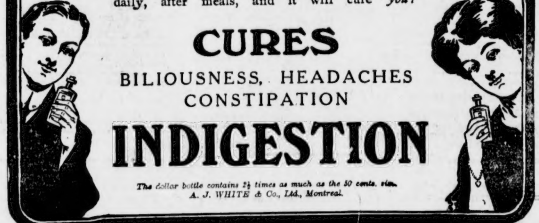

## THE FRIEND OF THE FAMILY

Mother Seigel's Syrup is the friend of all who suffer after meals, because it aids digestion! It is the friend of all who have headaches, biliousness, constipation or dizziness, because it banishes such ailments, root and branch! It is the friend of all who feel "seedy," because it clears away the poisonous products of indigestion, which clog the system and make you feel run down, brain-fagged, out of sorts! Better still, it tones and strengthens your stomach and liver, regulates your bowels, makes food nourish you, and thus prevents, as well as cures, all stomach and liver disorders. Mother Seigel's Syrup is the standard household remedy, "the friend in the cupboard" in hundreds of thousands of British homes, and is unequalled as a digestive tonic and stomachic remedy.

## MOTHER SEIGEL'S SYRUP

Mr. Chas. St. Stearns, 362, Richmond Street, W. Toronto, writes:—"My digestion became deranged about a year ago, and very soon my general health was affected. I had no relish for food, and when I ate I always suffered from sharp pains. I lost in weight, which was not unnatural, I suppose, as I ate much less than I was used to. I also had frequent headaches, and a general feeling of heaviness from which nothing seemed to relieve me. Then I turned to Mother Seigel's Syrup and now, thanks to that remedy, I am fully recovered, and in my normal good health."—15/2/1910. Take Mother Seigel's Syrup daily, after meals, and it will cure you!

**CURES BILIOUSNESS, HEADACHES, CONSTIPATION, INDIGESTION**

The bottle here contains 25 times as much as the 30 cent. size. A. J. WHITE & Co., Ltd., Montreal.

## BURNED TO DEATH IN PRISON.

**Terrible Fate of Widow Who Leaves Nine Children Helpless.**—Bremen, Mar. 16.—While undergoing twenty-four hours' detention in the prison at Sharley, Silesia, for not having made her children attend school regularly a poor widow was burned to death.

Nine small children were entirely dependent on the woman, who had to go to prison as she was unable to find the time of one shilling, which was inflated.

In the prison cell the straw on the floor caught fire from some unknown reason. The woman's cries were not heard, and she was burned to death. The firebrand, which retained this occurrence, demands an investigation into the affair. The position of the motherless children is not mentioned.

Packed in 1 and 2 pound cans only. 124

**Church's Alabastine**  
COLD WATER

Not the most costly, but the most stylish

and beautiful of all wall decorations. Alabastine tints make a room glow with warmth and cheerfulness. While the 21 tints and white you can best produce those soft, velvety effects which are found in the most fashionable homes to-day. Anyone can apply Alabastine. Just mix it with cold water and brush it on the wall. No glue or paste required. While quite inexpensive, Alabastine is the most sanitary and durable wall coating known. Hardens with age. Will not rub off or fade.

**Free Stencils** Let our staff of expert decorators draw up. Look for the "Little Church" brand of stencils. We will also supply free Stencils for attractive art and flowers (the border of this ad shows one of our stencils) ready for full particulars and handsome booklet.

**The Alabastine Co., Limited**  
KEY 38 Willow St., Paris, Ont.

**More bread and better bread**

Makes just the kind of biscuits you like to make

## OPPORTUNITIES IN THE PROVINCE OF ALBERTA

M. A. Cook, Publicity Commissioner for the Province of Alberta, gives interview to London Mail on the chances offered to British settlers in this Province.

"Alberta feels that Britishers are being chased." In these words M. A. Cook, of Calgary, publicity commissioner for the province of Alberta, expressed to a representative of the London Mail the reason of his visit to England. Mr. Cook's time, he says, has been fully occupied in giving interviews to settlers interested in settling in Alberta.

On his return to Canada he will urge strongly the advisability of having a representative of Alberta in London, who can put forward the claims of that vast province.

The distribution of literature, in his opinion, is all right, but personal interviews are far better for it is much easier to form an opinion as to what the inquiry is likely to "make good."

Amateurs—men of business and of land and conditions of the province taking in a few days who are open to Britishers, and Alberta offers chances to every man who will work.

"Natural development in Alberta," Mr. Cook says, "is the development of splendid tracts of land. People in Great Britain appear to have wrong ideas about homesteads being far from railroads. Homesteaders can get close to the railroads and in many cases in a few years the track reaches at the very door of the homestead."

"There is a demand for skilled men. We can't get too many skilled men, general laborers and farm laborers," Mr. Cook replied. "The opportunity is there, and the man who is willing to work will be ahead. If he can't 'make good' in Alberta, he can't make good anywhere. Scores of Britishers have done well in the province, but there is plenty of room for more, and the more the better. The country is very open, and good land is to be had everywhere."

"What is your advice to intending homesteaders?" Mr. Cook said. "It is for them to make application for homesteads as early as possible, before taking possession of them, and then to go on and make them. The upper standards are devoted to the work ordinarily carried on in the high schools of the eastern provinces of Canada, and the same are carried on in the upper standards of the State schools of the United States."

Since the province was organized four years ago a wonderful expansion in educational work has taken place. Seven hundred and thirty new school districts have been established, while the school population has increased from 14,000 to 45,000. There has been a great increase in the number of centers at which the children are educated.

Higher educational work in the upper standards and in the university. The Department of Agriculture, Alberta, maintains a publicity bureau for the purpose of securing free information to any person desiring to know the resources and conditions of the province. The latest crop bulletins and statistical reports will be sent to anyone inquiring for them.

Mass of the province will be distributed upon request. All inquiries should be addressed to the Publicity Commissioner, Department of Agriculture, Edmonton, Alberta.

"What are the crop prospects for this year?" "Very good indeed. There was a heavy rainfall last fall, and there has been enough rain to keep moisture in the soil. We anticipate a bumper crop for Alberta this year."

Mr. Cook's remarks with regard to women in Alberta are of great interest in view of the recent announcement that women are wanted in Canada. "Good domestic servants," he remarked, "are at a premium. A girl can receive \$4 a month and find."

"Few people," observed Mr. Cook, "have any adequate idea of the vast size of the province of Alberta. To get such an idea one must conceive of Canada with its 3,743,000 square miles of territory as larger than the continent of Europe or the whole of the United States. Then one must think of the provinces of Canada as tiny young nations greater in size and as rich in natural resources as the great nations of the old world. Alberta is larger than Egypt. It is within a few hundred square miles as large as the combined areas of California, Oregon and Washington, or the combined areas of Montana, North Dakota and Minnesota. It is larger than Germany, France or Austria-Hungary, and has a more favorable climate of agricultural land."

"Then you give us some idea of the climate of Alberta?" "This is another point," said Mr. Cook, "upon which there has been much misrepresentation. Canada was the home of the rich fur trade, and men associating warm furs with country as a rim of ice on the Arctic coast. As a matter of fact the home of the fur-bearing animals the seal and the Arctic fox is far away from the wharves of Alberta as it is from the capitals of France, Germany or England. All these false notions were dispelled when the Canadian government sent the first explorers and surveyors to take possession of the land. One may search the official records from end to end and nothing will be found but appreciation of the climate. The climate is resource and mild of the Great North-West. When it is the Indians for the first time, they find the Indians of the Saskatchewan and the Athabascans in skin robes and wearing their hair on the natural, bare, without shelter."

"What is the climate of Alberta?" "The climate of Alberta is a warm attraction to the settler as well as favorable to agriculture. Since the North-West Mounted Police were organized in 1874, and have patrolled every part of the North-West, the public have ample and reliable data of climatic conditions."

One can continue the speaker, ever left Alberta because of the climate. And the climatic conditions are particularly adapted to the growing of wheat. Alberta produces the wheat belt of the continent. The States of the American Union that formerly produced wheat are now the corn States Ohio, Indiana, Iowa and Southern Minnesota, with almost continuous corn belt for the continent. The West will as surely remain the wheat belt of the continent. The United States and Great Britain. Settlers should keep this point in view, for wheat growing is on the eve of a tremendous and profitable development in Western Canada. This fact was alluded to with the greatest expectations and hopes by the members of the British Association for the Advancement of Science at the quadrennial meeting in Winnipeg, August, 1909.

The wheat areas beyond Canada are becoming exhausted or encroached upon by other agricultural pursuits, and consumption of wheat is increasing at a greater rate than production. The price of wheat is in sight. This scarcity is Canada's opportunity, and she is wisely taking a leading place among the wheat-producing nations of the world."

Mr. Cook went on to emphasize the fact that in coming to Alberta the intending settler is coming to a country with a settled and progressive government. He is securing very few of the advantages of older communities. Excellent schools are provided for primary, secondary and university education. Roads and bridges are being supplied as fast as workmen and money can be found. Settlers have complete justice with the widest measure of individual liberty secure absolute protection for life and property rights.

The province has an excellent system of education, and the same are carried on in the upper standards of the State schools of the United States. Since the province was organized four years ago a wonderful expansion in educational work has taken place. Seven hundred and thirty new school districts have been established, while the school population has increased from 14,000 to 45,000. There has been a great increase in the number of centers at which the children are educated.

Higher educational work in the upper standards and in the university. The Department of Agriculture, Alberta, maintains a publicity bureau for the purpose of securing free information to any person desiring to know the resources and conditions of the province. The latest crop bulletins and statistical reports will be sent to anyone inquiring for them. Mass of the province will be distributed upon request. All inquiries should be addressed to the Publicity Commissioner, Department of Agriculture, Edmonton, Alberta.

## SEAL OF ALBERTA

The Faultless Flour is one prime essential for making perfect bread.

But of course it would be foolish for us to say that there are no other factors in the making of good bread. If you seek for perfection and uniformity you must seek to control the temperature.

A good baker will determine the temperature of his flour, then use sufficient warm water to raise the whole dough mass to the desired point.

He will then seek to control the temperature during the bread is rising, for temperature

is one of the greatest factors in the securing of absolutely uniform results even from so excellent a flour as SEAL OF ALBERTA.

But there are times when do what you may you cannot have everything exactly right. Then you must depend upon the quality of your flour, and SEAL OF ALBERTA is more carefully made, more absolutely uniform, and because it is a known, definite flour, you will always get better results with it under adverse conditions, than you would with any other flour. There is reason in this argument, and you can prove it by a constant use of SEAL OF ALBERTA flour.

One quality of each of these equal sale and balance in three equal parts. He will then seek to control the temperature during the bread is rising, for temperature

is one of the greatest factors in the securing of absolutely uniform results even from so excellent a flour as SEAL OF ALBERTA.

But there are times when do what you may you cannot have everything exactly right. Then you must depend upon the quality of your flour, and SEAL OF ALBERTA is more carefully made, more absolutely uniform, and because it is a known, definite flour, you will always get better results with it under adverse conditions, than you would with any other flour. There is reason in this argument, and you can prove it by a constant use of SEAL OF ALBERTA flour.
